SUMMARY

Python Full-Stack Developer with hands-on experience building scalable web applications using FastAPI, React, MongoDB Atlas, and modern REST API architectures. Experienced in developing AI-powered applications with LLM integration, JWT authentication, role-based access control, payment gateway integration, and cloud-hosted deployments. Skilled in designing responsive user interfaces, asynchronous backend services, and database-driven systems. Passionate about creating production-ready solutions and continuously expanding expertise in full-stack development, artificial intelligence, and modern software engineering practices.

SKILLS

Programming: Python, JavaScript

Backend: FastAPI, Django, Django REST Framework (DRF), REST API Development

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Redux Toolkit

Database: MongoDB Atlas, PostgreSQL, MySQL, SQLite

Authentication & Security: JWT Authentication, Role-Based Access Control (RBAC), Password Hashing, API Security

AI & Integrations: Groq API, LLM Integration, AI Recommendation Systems, Prompt Engineering

Payments & Cloud: Razorpay, Vercel, Render, Netlify

Tools & Technologies: Git, GitHub, Postman, Axios, Framer Motion

Concepts: Full-Stack Development, CRUD Operations, Responsive Design, Database Design, RESTful Architecture

PROJECTS

Trendora — AI-Powered Fashion E-Commerce Platform

- Developed a full-stack AI-powered fashion e-commerce platform using FastAPI, React, MongoDB Atlas, and Redux Toolkit.
- Built secure JWT-based authentication, role-based access control (RBAC), product management, shopping cart, wishlist, and order processing workflows.
- Integrated Groq-powered Gemma 2 (9B) AI stylist capable of understanding natural language queries and generating personalized fashion recommendations and outfit suggestions.
- Implemented advanced product discovery with intelligent filtering, recommendation scoring, chat-based fashion assistance, and personalized shopping experiences.
- Integrated Razorpay payment gateway with secure server-side payment verification and inventory management workflows.
- Designed a premium responsive black-and-white luxury UI using React, Tailwind CSS, Framer Motion, and modern state management techniques.
- Tech Stack: FastAPI, React, MongoDB Atlas, Redux Toolkit, Groq API, Gemma 2 9B, Razorpay, JWT, Tailwind CSS, Python.

SkillBridge – Job & Course Portal Platform

- Built a multi-role platform for Job Seekers, Recruiters, and Course Providers using Django.
- Implemented job posting, applications with status tracking, and saved jobs.
- Designed custom user roles with automated profile management using Django signals.
- Added course listings with paid plans and internal messaging/notifications.
- Tech Stack: Python, Django, PostgreSQL, HTML, CSS, Git

MaintraX – Maintenance Management System (CMMS)

- Built a full-stack CMMS to manage facilities, equipment, and technician workflows.
- Developed REST APIs using Django REST Framework with JWT authentication and role-based permissions.
- Implemented request lifecycle from creation to completion with work logs.
- Built responsive role-based dashboards using React and Tailwind CSS.
- Tech Stack: Python, Django, DRF, React, Tailwind CSS, SQLite, JWT, Git

EXPERIENCE

Python Full Stack Intern – SMEC Technologies | Feb – May 2026

CERTIFICATIONS

- Python Programming (Intermediate) – KELTRON, 2023
- Certified Python Full-Stack Developer – SMEC Technologies June 2025 to Jan 2026
- Python Full Stack Internship Certificate – SMEC Technologies Feb to May 2026

EDUCATION

Certified Python Full-Stack Developer Training

SMEC Technologies, Kochi

2025 – 2026

Bachelor of Computer Applications

Mahatma Gandhi University, Ettumanoorappan College, Kerala

2022 -2025

LANGUAGE

- English
- Malayalam
